EVENTS OF TRADES DAY

COMMITTEE BUSY ALL DAY ARRANGING EXHIBITS.

THE LINE OF PARADE

List of Sporting Events and Place of Each.

The Trades committee has had its hands full today arranging the exhibits brought in from all quarters of the county. Corn, cotton and other crops and poultry of different kinds are already at headquarters with more to follow.

Monday the grand parade will leave the Davis barn near the Katy depot promptly at 11:30. The line of march will be up Main to Broadway, thence north to Frisco tracks, back on Broadway to 12th, east to Townsend, north to Main, west to Frisco track, east to Davis barn. Everybody invited to be on hand with their vehicles of whatever description and participate in the parade.

CLASS "F"—SPORTING EVENTS.

The ball game will be free for everybody and a hot game it will be, too.

Cut out this list of events and refer to it, thereby saving the trouble of asking and answering questions.

SALE OF THE SCHOOL LANDS POSTPONED

Oklahoma City, Ok., July 15.—Unfavorable crop conditions and the fact that it might not bring what it was worth on the open market and at what might be regarded as a forced sale, Commissioners of the School Land Department will probably postpone for some months sale of the 1-750,000 acres of school land, provided for in an act of the Third legislature. The board, however, is to meet next Thursday to consider the matter of fixing a sale date according to information given a committee from the school land lessees' union, which has been here in conference with the board members.

Another objection to attempting the sale at this time lies in the fact the legislature failed to make an appropriation for the appraisement of the land as well as the lessees' improvements. There is available an appropriation amounting to about \$22,000 for the next two years, which will complete about 2,000 of the 10,000 tracts of 160 acres each for the market. The department heads are unwilling to transfer money from other funds for this purpose, alleging that such diverting of the public money would come near being within a criminal statute. The lessees' committee urged the board to proceed with the work and when the money was out they would see that claims for the work were purchased at full value. Members of the board do not think that procedure would be legal.

The lessees have also requested to be heard before the board finally adopts rules and regulations governing the sale, and say that objection made before the sales start might be the means of preventing litigation afterward. They want to obviate, if possible, repetition of some of the old rules, the one in particular that holds where there are no bidders for land, and the lessee declines to take the property at the appraised value, he loses his preference right. A number of sales have been made in the past; they state, under such duress, and lessees have taken the land at a figure far in excess of its worth, thinking they were preserving their preference right.

Rules laid down by the legislature for sale of the last batch of school land, embracing Secs. 13, 16 and 36, are not different from those of the first sales act in general particulars. When the sales are completed, all of the Oklahoma school land will have been disposed of.

Mrs. Beard's Class Entertained.

Miss Tommie Lee Worthington entertained Mrs. Beard's Sunday school class Thursday afternoon. After a brief study of the lesson for next Sunday, the girls spent the remainder of the time embroidering. The hostess served ice cream and cake.

M. L. Sayers went to Tupelo today to meet an old time Tennessee friend whom he has not seen in ten years. He will hear this friend preach tomorrow.

KILLED BY EXPLOSION OF NITROGLYCERIN

Tulsa, Okla., July 14.—In an explosion which shook the surrounding country for miles, Barney Sullivan, a prominent oil man, and his team and buggy were blown to atoms this morning by the premature discharge of a quantity of nitroglycerin. Shreds of flesh hung upon the trees about the scene of the disaster and scarcely enough was found to identify the victim.

The shock broke windows and shook buildings for miles around. Hundreds of people in this city ran into the street, thinking an earthquake had taken place.

Sullivan was one of the best known oil men in the field about this city and was conveying the explosive to be used in shooting a well when it was accidentally touched off.

The cause of the explosion is not known.

HOUSE LOOKS INTO WILEY MATTER

Washington, July 14.—The house committee on expenditures in the department of agriculture, of which representative Moss of Indiana is chairman, paved the way today for an immediate and thorough congressional investigation of the pure food administration, with a view primarily to ascertaining "who wants Dr. Wiley fired, and why?"

The sentiment in the committee, and in fact, among the house membership, is pronounced and aggressively favorable to the chief chemist. Before his committee met today, Representative Moss had a two hours conference with Dr. Wiley at the latter's office. The committee decided, as a basis for the investigation, to send to Secretary of Agriculture Wilson for all of the official records in the case, including the original charges, the testimony and the recommendations of the board of personnel, the Secretary of Agriculture and the Attorney General, all adverse to Dr. Wiley.

To Issue Subpoenas.

After this official record has been received, subpoenas will be issued for everybody involved in the matter. Dr. Wiley will be the first witness subpoenaed, and it is asserted he will tell, under oath, a story of persecution that will arouse Nation-wide interest.

The committee also plans to go deeply into the question of how effectively the pure food law is being

enforced, and to what extent the department's pure food board, which has the last say of Dr. Wiley's findings, has overturned possible decisions. Chairman Moss said today that he proposes to have all of Dr. Wiley's decisions made public, and to summon witnesses to show what business interests were benefited by such adverse action by the board.

This pure food board is different from the Remsen board, consisting of Dr. Wiley and two other officials of the Department of Agriculture, who are said to be antagonistic to Dr. Wiley's work, and who have been doing the overturning of his decisions.

Dr. Wiley, to whom the charges, with recommendations that he be permitted to resign, were referred by President Taft, has not yet made his reply, and probably will not do so before Monday. Out of courtesy to his chief, the secretary of Agriculture, the chemist will send his answer to that Cabinet member, and by the latter it will be forwarded to the president.

Swamped With Telegrams.
Both the president and Dr. Wiley were swamped today with telegrams.

Charles W. Dabney, president of the University of Cincinnati, wired Dr. Wiley as follows:

"Tell me how to help. Shall I write the president. The Cincinnati branch of the American Chemical Society will adopt resolutions Monday, and can wake up all other branches."

A New York baking firm today made Dr. Wiley a pattering offer by telegraph to take charge of the science of bread-making.

The president is being bombarded with telegrams from all over the country, referring to the charge as a trivial technicality and urging him to keep Dr. Wiley in office.

OKLAHOMA MAN FLEECE

BY KANSAS CITY SHARP

Kansas City, July 14.—Had the stranger given the high sign, the low sign, the grip and the appeal of a brother in distress, F. L. Busch of Ripley, Okla., might have given up all his worldly goods today at the union depot. As it was the man merely gave Busch one sign of an order of which Busch was a member, and Busch lost only \$16.

Busch said the man began talking to him in the depot after giving him the sign. The man told Busch among other things, that he had a brother in the grocery business in Lamar, Mo. He started up the stairs with

Busch, but a man below called to the "brother" and told him his baggage was being held for \$16. The man produced a draft for \$800, but could not bring forth \$16 in money, Busch said. Busch lent him the \$16. He waited for the man, but he didn't return.

Fall of Troy Witnessed by Many.

All who witnessed the Fall of Troy last night at the Lyric pronounced it one of the greatest films ever shown in the city. In a short time the immense air dome was packed to its full capacity and standing room was at a premium. However, the managers say they will put on three shows tonight as follows: 8:15, 9:30 and 10:45. Any one who will come at any of the specified times will be sure of seats and won't have to wait. Admission 10c and 15c. 87-11

TWO FOUND GUILTY OF BOOTLEGGING

Yesterday afternoon T. B. Belt was found guilty on a charge of bootlegging in connection with Evans and Cook. That is a total of three growing out of the raid made Friday afternoon of last week, about which so much comment has been heard. Jno. See, the negro arrested the night before with seven quarts in his possession, also made his plea of guilty. Four cases in two days aggregating \$200 and costs. On payments of the fines the prisoners will probably be paroled during good behavior.

How Indians Get Rain.

Wetumka, Okla., July 15.—Farmers along the Canadian River near Wetumka have been much interested in the novel efforts of the full blood Indians to obtain rain. The full bloods, becoming alarmed at the drought and fearing the loss of their crops and consequent famine resorted to native traditions. The white farmers along the Canadian noticed hundreds of turtles that had been tied on the river bank within an inch or two of the stream but not close enough to touch the water unless there should be a rise in the river. The full bloods who had caught the turtles and staked them out explained that the turtles in their agony would pray the Great Spirit and that their prayers would be answered with rain.

MORRIS-FLYNN BATTLE WILL OCCUR AT FRISCO OR PHILA.

Tulsa, Okla., July 14.—The Flynn-Morris fight will be staged either in Philadelphia or San Francisco next August, according to an announcement made today. B. F. Ufer, Morris' manager, has returned from the east. Ufer said there would be a definite decision within the next ten days.

R. A. Jackson Dead.

Word was received here last Friday that R. A. Jackson, who resided here a few days ago, was dead at his home in Heber, Ark.

While here Mr. Jackson was engaged in the mercantile business and has many friends in this section. Typhoid fever is said to be the cause of his death.—Stonewall News.

GOSPEL TENT ON NORTH SCHOOL GROUND

The congregation taxed the seating capacity last night at the tent on the North School ground where the pastor of the First Christian church is conducting a meeting. The subject of the evening was "Throngers or Touchers," Mark 5:24-34. As long as men throng they are lost. Salvation is appropriated by the exercise of the sovereign will. "Whosoever will" rings all the way through God's word. All, every man, hardened in sin, the religionists, the moralists, must become touchers. The hardened sinner, Acts 16:25-34; the religionist, Acts 2:22-24; 32-38; the moral man, Acts 10:1-6; 11:14. All of these were pointed to the Christ as the source of salvation. The how to be saved is here set forth, faith, repentance, baptism.

The services will continue on each evening for the rest of the month at least. The subject for tonight will be "Who Could It Be but Jesus?"

Sunday at the Tent.

There will be only one service at the tent on Sunday the same being the evening service. The subject for this hour will be "A closed Door and a Waiting Savior."

Congress May Adjourn Aug. 7.

Washington, July 14.—An agreement to vote on Canadian reciprocity on July 22 was reached by leaders of the senate factions this afternoon. The agreement fixes the vote of the house wool revision bill on July 27, the free list bill on August 1, the re-apportionment bill August 3, and the statehood bill August 7. It is expected that adjournment of congress will immediately follow the statehood vote.

Senator Cummins introduced new amendments to the Canadian reciprocity bill today. One sought to couple the revision of tariff on metals with reciprocity measures. The other proposed a revision of the duty on oil cloth and linoleum.

Senator Bristow resumed his speech against the reciprocity bill. He declared Cuban reciprocity had taken ten million out of the government's revenue from the sugar tariff and put it into the treasury of the sugar trust.

"That twenty per cent reduction in sugar duty," he said, "has enabled the sugar refiners to buy their sugar in Cuba at twenty per cent less. Cuba has received no more for her sugar and American consumers received no benefits."

Remarkable Surgical Operation.

New York, July 14.—By grafting the shin bone of a man onto a woman suffering from necrosis, thus practically giving her a whole new lower leg, the surgeons of a New York hospital for deformities have

completed an operation unique in surgery.

Up to now operations of this sort have been confined to experimental work on dogs. The first essential was to get a good healthy bone to take the place of the one eaten by disease. After a time one of the hospitals which handle emergency cases reported that a man had been killed in an accident. As the body was unclaimed and would have gone either to the potters field or the dissecting table of some medical college a requisition was made for one of the legs, from which the tibia was taken. It was kept in an ice box immersed in a strong salt solution until the surgeons were ready to use it.

THE TENT MEETING 8TH AND OAK AVENUE

Last night the subject was made very interesting. The "Fall of Babylon" (Spiritual Babylon) is not only interesting but immensely important. It was shown from scripture and plain admissions from leading men of various denominations that the churches are not what they used to be but are going back toward the mother church—Rome.

The eternal destiny of millions in Christendom depends on their attitude toward the "Fall of Babylon." If Rome is the "mother of harlots" who are the daughters? Are they not those who retain some of her false doctrines?

The subject tonight will be: "Spiritism." Sunday night: "The two Covenants." Everybody should hear these.

We invite you.

MY DOCTOR MIGHTY FINE

Mrs. Hattie Cain of Carrsville
Thinks all the More of Her
Doctor Since He Advised
Her to Take Cardui.

Carrsville, Ky.—"My doctor," writes Mrs. Hattie Cain, "who advised me to take Cardui, for my troubles, is a mighty fine doctor, and I say God bless Cardui and the people who make it."

"Before I took Cardui, I suffered with female troubles for sixteen years. I would have to send for a doctor every three months, and oh! how dreadfully I suffered!"

"I would cramp and have convulsions and it looked like I would die. At last I took Cardui and oh! what a surprise! I found it was the medicine for me!"

"From the first bottle, I began to mend and now I am well, can do more work, can walk and go where I please and it doesn't hurt me, and I owe it all to Cardui."

Cardui helps sick women back to health. It has been doing this for over 50 years. It is not a laxative, or a heart or kidney medicine—it is a woman's medicine.

If you are a woman, try it.

THEIR HIDES ARE TOUGH.

Rockefeller, Carnegie and Morgan are apparently human pachyderms. We have deliberately and repeatedly insulted them and not one of them has spirit enough to resent it. We could bat an eyelash at a two-bit politician in Texas and evoke a three-column retort, a libel suit and possibly an exchange of shots within two hours.—Houston Post.

Monday will be Trades Day, the occasion which has been looked forward to with such expectancy. Indications point to a record-breaking crowd and it is up to the citizens in general to turn out and help make the day the unparalleled success it deserves to be. Show the visitors every courtesy and that you feel a personal interest in them and their exhibits. This Trades Day move is next to a county fair, and it is the sincere hope of the News that it will eventually grow into the best fair in the state. Another thing to remember: No matter what comes up that is not according to your individual notion, don't go off mouthing your complaints about it. The committee has worked faithfully, and the News believes has spared no effort to carry out the plans for a big day. It is the opinion of the writer that nothing will go wrong, and if you hear any complaint it will probably be due more to the cussedness of the critter than to any fault of the committee. Now is the time to boost, not knock.

Most men want the laws enforced so far as they do not affect them individually. When that happens a mighty roar goes up about officers working a punch game.

Okemah Man Saw Ghost.

Janitor Frank Jacobs of the court house received a scare Sunday morning that he will remember for the rest of his life. He had business in the room in the county court house in which the female cell is located and entered the room before it was quite daylight, not finding what he wanted he struck a match to look around when he heard a noise in the female cell, and turning in that direction was almost paralyzed with fright to see standing in the cell door a negro woman clad in long white garments. He knew in an instant that the ghost of the Nelson woman had visited the cell from which she was taken, and as soon as he could move he started out of there. A few boxes, chairs, etc., that got in his way were run over and parties hearing the noise would have thought a half dozen young mules were being driven down the court house stairs.

The apparition was the negro woman, Mable Brown, brought up from Weleetka Saturday evening and placed in the cell without Mr. Jacobs knowing of her presence there. Hearing him moving around the woman got up to see what it was, and the ghostly robes were nothing more frightful than a long white night gown.—Okemah Ledger.

Supreme Court Term Closes.

Oklahoma City, Ok., July 14.—The spring term of the Supreme Court came to a close today, and the court adjourned until the second Tuesday in September. During the interim furniture and records of the court will be placed in the Lawrence Building, where the legal branch of the Government is to be housed. All of the Supreme Court property is in Oklahoma City, save the library, which will arrive during the week. The Attorney General has not yet transferred the main office from Guthrie. During the summer the Judges will take a rest. Justice Dunn and family are in California. Chief Justice Turner, and wife will go to Colorado Springs this week. Justice Williams expects to fish in the Great Lakes and in Canada, while Justices Kane and Hayes will remain in Oklahoma.

BUSINESS BUILDING

AN ADVERTISEMENT IS YOUR CHEAPEST SALESMAN

The chances are that if you go into almost any store in a country town, at the present time, and tell the storekeeper that his cheapest salesman is his advertisement in the local newspaper he will laugh at you. He will laugh because he does not know what salesmanship means. It is the mere showing of his goods to any customer that has the good luck to come into his store, according to his lights. He does not realize that it is possible for customers to be enticed to his store to actually demand goods that they never thought they wanted before.

It is a comparatively easy matter to sell a woman or man goods when you have them in your store and can lay the wares right in front of them. In such a case much more than nine tenths of the selling act has already been accomplished by the coming of your customer to the store. Even then a salesman who can get big results in the store is classed as high-grade, and his salary, no matter how large, is considered a reasonable expenditure and, in many cases, cheaply spent.

To cause a customer to have a desire to come to your store, where no desire existed before, requires salesmanship of a high order. Such salesmanship makes new customers—builds your business and lays, in short, the foundation of your fortune. No retail business of modern times can make a great success without such salesmanship—without, in other words, the proper utilization of space in your local newspaper. Considering the results this kind of salesmanship obtains, it is the best and cheapest you can buy.

This efficient use of space in your local newspaper has been called salesmanship on paper. If you fill the space with forceful matter that will create attention, cause conviction and bring results, you have an addition to your sales force that may surely be called the best promoter on your staff. The results that are obtained from this salesmanship depends on the selling ability used. But no matter what results are obtained, the quality of salesmanship necessary is much greater than that required inside the store.

The big mail-order houses reckon that they must pay so much money for every inquiry they get. The amount of this sum is ascertained by dividing all the money spent on advertising and selling literature by the number of letters received in answer to the same. This refers to inquiries only. Not every inquiry becomes a customer. The securing of actual customers cost more. The money that has to be spent to get one new customer by those concerns would astonish the local retailer. It is usually not less than the amount spent on several weeks' advertising by the average local storekeeper. The salesmanship on paper that is necessary to do all this is the finest that can be got for money and it is considered cheap at the enormous price paid for it because it is engaged in building up a big mail order business with new material.

Seventeen Counties Get Rain.

Oklahoma City, Ok., July 15.—Reports to the farm demonstration department of the board of Agriculture show that during the last week seventeen of thirty counties in Oklahoma received rains equal to one-half inch or better. Most of the moisture fell in western counties and where rain is reported, Superintendent Russell says the ground has been wet sufficiently to permit good growth of fall feedstuff. There will be a very light loss on demonstration farms.

In some sections of the state, particularly Pawnee, Caddo and Dewey counties, grasshoppers have worked much damage to crops, and in spots the webworm has injured cotton. Reports to the department show that wheat and oats are good in spots. A farmer in Bryan County thrashed an average of fifty-six and one-half bushels per acre from oats.

Another in Pontotoc got 196 bushels of wheat from nine acres and 600 bushels of oats from fifteen acres.

ing up a big mail order business with new material.

The local retailer can apply a lesson from this to himself. If those mail order houses spend so much money to get one new customer, why should a retailer not make an effort in the same direction? Why should he not adopt the same means of attractive salesmanship on paper? If he can bring even one new customer a week to his store with an expenditure that is many times below what a mail order house has to pay for getting the same results, it is worth while paying closer attention to this successful method of selling. If he can influence more than one customer, and it would be poor local newspaper advertising indeed that could not do that, he would be accomplishing far more than the mail order houses with their highly paid selling experts. And, as a business man, he could congratulate himself on a good investment. He could say to himself that he had in his advertisement the cheapest salesman on his force.

It is, of course, not always possible to readily get this strong, convincing selling matter in your newspaper space. You may not be able yourself to write it and you may not have any local person to whom you can turn. But that need not deter you. There are now on the market one or two syndicated advertising services that are designated specially to suit cases like yours. These services are supplied in a series of fifty-two advertisements with accompanying copper-plate engravings, one for each week in the year, at prices ranging from one dollar per week up. Many of the advertisements have been classed by authorities as equal to the best that have made successes for the big city department stores and national advertisers. Reduced facsimiles of several of these advertisements will be seen at the top of this column.

The advertisements shown above have received many testimonials from experts. For instance, Wm. H. Ukers, President of the Grocery and Allied Trades Press Association of America (a combination of the entire American Grocery Trade Press) and editor of the Tea and Coffee Trade Journal, New York, writes:

"I consider your advertisement the best I have seen in a long time."

The Retail Journal, Chicago, writes:

"We believe the sample of your advertisement sent us are of the best we have ever seen."

After expressions like these from men who have spent long lives amongst the kind of advertising that has built fortunes for the shrewd users, the local merchant who neglects the opportunity now offered him to obtain some of these success making announcements is missing the chance of his lifetime.

The editor of this paper will be glad to supply further particulars of the syndicate whose specimen ads adorn the top of this column and I advise early application as only one of these services will be supplied to each storekeeper in his own town.

There's Not a Store In Town

That Would, In Six
Months From Now
Be Half as Important
as it is Now, if it
Should Stop Adver-
tising During That
Time!

Isn't that perfectly true—perfectly logical? Can you imagine any store of which it would not be true?

And, if true, does it not follow that the reverse of the proposition is true, too—that the store that doubles its accustomed advertising for the next six months will also double its accustomed store growth for that period?

And does not this, also, apply to any store you can think of in this town?

We have lately overhauled our mill and installed some new machinery including the latest up to date methods in modern milling which enables us to make the clearest flour that is possible to be made from wheat.

In order to introduce our new flour and convince you that there is no better made we will sell until further notice at \$1.00 and \$1.10 a sack.

Patronize Home Industries. All things being equal people should patronize home industries thereby helping to build up your city and country.

But we don't want to take advantage of that fact in order to sell you inferior flour. Ada flour stands on its own merits and is second to none in the state. Remember that our mill pays taxes in your city and county.

So try our flour and if you like it continue to buy it thus helping to build up a home institution. 82-dtf ADA MILLING CO. By R. W. Allen. Phone 66.

BRUTAL HUSBAND ALMOST KILLS WIFE

The victim of the following horrible story published in the Spiro Tribune is the daughter of J. A. Laughlin of Conway. The News would have far more respect for the men of Spiro if they had hanged the devil of a husband to a limb of the nearest tree. The account in the Tribune is as follows:

Friday morning a little boy about four years old went to the home of Mr. Rogers near Oak Lodge and when asked where he belonged replied that he had a mamma and papa down in the woods. After giving the child his breakfast, Mr. Rogers went with him to where his parents were and found the woman all but dead from the brutal strokes of the fiend incarnate to whom she was married. In answer to inquiries the man claimed that a team had run away with his wife and she for fear of his anger did not deny the story. Mr. Rogers saw at once that the woman was in delicate health and a very serious condition. He phoned to Spiro for an officer and a physician. Constable George Manning was soon on the scene and had the human devil under arrest. When first found the woman lay on the bare ground with her clothes literally beaten into her flesh and torn to shreds by the sticks and branches with which he had tortured her.

It was truly a sickening scene and heart rending story. It seems almost cruel that the poor creature could not be relieved of her suffering even by death, for she evidently suffered a thousand horrible deaths during that long night of torture. It makes one's head turn and blood boil to hear even half the truth concerning the condition of this woman.

It is beyond our power to paint the scene even in one-tenth of its true fiendism and were it possible to do so it would take the state militia to prevent his being dragged from the cell and torn to pieces by citizens who regard the life a helpless premature mother.

Justice Joe Harris has a bunch of limbs, which the officers gathered up on the route where this human devil had beaten his wife on exhibition in his office which are literally covered with blood and wisps of hair. These in themselves tell a tale which is without a parallel.

She says he beat her for a distance of a mile because she was trying to make her escape, making her carry the four year old child. When the torture became unbearable, she fainted, only to be kicked and stamped till consciousness returned. Reveling in his love of torture he took her by the hair and tried to break her neck, failing in this, when they crossed the railroad track he attempted to gather her up bodily and crush her skull on the rails.

It was all cool headed officers could do to prevent his being lynched on the spot.

The fiend gave his name as Ed Smith, but his real name is said to be John Brooks. They came to this section from near Hugo, Okla., where he was released from jail last winter. They stopped at Panama, some time ago, where he was arrested and tried for wife beating, but his wife fearing he would kill her, refused to testify against him, and he was released. The child with them is only a step child to the unfortunate woman. Brooks is now in the county jail at Poteau awaiting developments. The woman is still alive but little chance for her recovery.

NATURE'S WARNING.

Ada People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously.

But nature always warns you Notice the kidney secretions.

See if the color is unhealthy—

If there are settlings and sediment, Passages frequent, scanty, painful.

It's time then to use Doan's Kidney Pills.

To ward off Bright's disease or diabetes.

Doan's have done great work in this locality.

William Toison, Oklahoma Ave., and E. First St., Sulphur, Okla., says:

"About two years ago my kidneys became badly disordered. The kidney secretions were unnatural and irregular in passage and this, coupled with backache, made me miserable. The contents of a few boxes of Doan's Kidney Pills cured me. I have had occasional backaches since then, due to exposure to all kinds of weather, but a few doses of Doan's Kidney Pills have never failed to dispel my trouble. By experience I have found that this remedy is one that can always be relied upon to give relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Some Cynic.

A spring poet, whose specialty is cynicism, dashed off the following: "The man who is brave enough to desire to marry the modern girl needs no further test of his courage."

BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

S.S.S. PERMANENTLY HEALS SORES AND ULCERS

No matter in what way an old sore or ulcer first commenced, whether from a wound, cut, or bruise, or from the ulceration of a wart, pimple or mole, or even if it came without apparent reason, the fact that it does not heal shows that bad blood is responsible for the place. While the circulation remains impure and polluted, the nerves and tissues of the flesh around the place are constantly being fed with unhealthy matter and the fibres are thus prevented from knitting together and healing. Purify the blood and the place **MUST** heal, its cause having been removed. **S. S. S.** cures old sores and chronic ulcers because it is the greatest of all blood purifiers. It removes from the circulation every taint or impurity, and so enriches the blood that it feeds and nourishes the tender, sensitive flesh, causes a knitting together of all fibrous tissue and thus heals the place naturally and permanently. Book on Sores and Ulcers and any medical advice desired sent free to all who write and request it. **S. S. S.** is sold at drug stores.
